ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

VISION

To become an Internationally renowned Institution in technical education, research and development, by transforming the students into competent professionals with leadership skills and ethical values.

MISSION

- ❖ Providing the Best Resources and Infrastructure.
- ❖ Creating Learner centric Environment and continuous – Learning.
- ❖ Promoting Effective Links with Intellectuals and Industries.
- ❖ Enriching Employability and Entrepreneurial Skills.
- ❖ Adapting to Changes for Sustainable Development.

Kongunadu College of Engineering and Technology

(Autonomous)

Approved by AICTE, New Delhi & Affiliated to Anna University, Chennai
Accredited by NBA (CSE, ECE, EEE, Mech), NAAC,
Recognized by UGC with 2(f) & 12(B) An ISO 9001:2015 Certified Institution
Namakkal-Trichy Main Road,
Thoulrpatti(Post), Thottiam, Trichy-621215, Tamil Nadu

ARTIFICIAL INTELLIGENCE AND DATA SCIENCE

VISION

To produce globally competent engineers in the field of Artificial Intelligence and Data Science with a focus on emerging computing needs of the industry and society.

MISSION

- Enrich the students' skills, knowledge with interdisciplinary skill sets by cognitive learning environment and industrial collaboration.
- Promote quality and value-based education towards emerging computing needs of the industry and entrepreneurship skills among students.
- Provide for students with leadership qualities, ethical and human values to serve the nation and focus on students' overall development.

PROGRAM EDUCATIONAL OBJECTIVES (PEO's)

- **PEO I:** Graduates will be able to Artificial Intelligence professionals with expertise in the fields of Artificial Intelligence, Big Data Analytics and Data Science.
- **PEO II:** Graduates will be able to develop problem solving skills and ability to provide solution for real time problems.
- **PEO III:** Graduates shall have professional ethics, team spirit, life-long learning, communication skills and adopt corporate culture, core values and leadership skills.

Kongunadu College of Engineering and Technology

(Autonomous)

Approved by AICTE, New Delhi & Affiliated to Anna University, Chennai
Accredited by NBA (CSE, ECE, EEE, Mech), NAAC,
Recognized by UGC with 2(f) & 12(B) An ISO 9001:2015 Certified Institution
Namakkal-Trichy Main Road,
Thoulrpatti(Post), Thottiam, Trichy-621215, Tamil Nadu

PROGRAM SPECIFIC OUTCOMES (PSO's)

- ❖ **PSO1: Professional skills:** Students shall excel in software development including Artificial Intelligence technologies to solve complex computation task with soft skills.
- ❖ **PSO2: Competency:** Students shall qualify at the State, National and International level competitive examination for employment, higher studies and research.

Kongunadu College of Engineering and Technology

(Autonomous)

Approved by AICTE, New Delhi & Affiliated to Anna University, Chennai
Accredited by NBA (CSE, ECE, EEE, Mech), NAAC,
Recognized by UGC with 2(f) & 12(B) An ISO 9001:2015 Certified Institution
Namakkal-Trichy Main Road,
Thoulrpatti(Post), Thottiam, Trichy-621215, Tamil Nadu

PROGRAM OUTCOMES (PO's)

Engineering Graduates will be able to:

1. **Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.
2. **Problem analysis:** Identify, formulate, review research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.
3. **Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.
4. **Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.
5. **Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.
6. **The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.
7. **Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.
8. **Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice.
9. **Individual and team work:** Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
10. **Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.
11. **Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.
12. **Life Long Learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

INTERNSHIP TRAINING REPORT

1. About the Industry:

Galwin Technology, based in Trichy, is a leading tech training and R&D company specializing in embedded systems, IoT, robotics, and industrial automation. It offers hands-on internship programs, mini/final year projects, and technical training tailored for engineering students. The company bridges the gap between academics and industry through practical, project based learning. Galwin's services include so ware and hardware development, skill workshops, and industry consul ng. Its training covers microcontrollers, Raspberry Pi, Python, PLC/SCADA, MATLAB, and more. Students receive 1:1 mentorship, industry-recognized certifications, and career guidance. The curriculum is built using the latest tools and real- me applications. Galwin also supports college collaborations and campus workshops.

2. Scope of Work:

The internship provided a comprehensive introduction to Machine Learning and Computer Vision , emphasizing practical application through hands-on learning. A highlight of the program was the hands-on mini project, where we worked on a real-world dataset to implement and worked based on predictive analysisin robotics, and prepared me for more complex challenges in robot automation and intelligent system design

3. Description of the Work:

I worked with **Arduino**, **Raspberry Pi**, and various sensors and actuators. Key topics included **motion control**, **sensor integration**, and **real-time processing**. learned to design circuits and write code using **C++** and **Python**. Projects included a **line-following robot** and an **obstacle-avoiding vehicle**. These tasks taught me how to connect hardware with logical control systems. I practiced coding algorithms to control robotic movement and response. I also gained experience in troubleshooting and testing hardware. The internship improved my skills in robotics and automation. It prepared me to take on real-world challenges in intelligent systems.

Namakkal-Trichy Main Road,
Thoulrpatti(Post), Thottiam, Trichy-621215, Tamil Nadu

4. Outcomes of the Internship:

- Built a strong foundation in Machine Learning and Computer Vision, covering basic syntax, data types, libraries, TensorFlow, Pytorch, Keras, OpenCv etc,...
- Strong knowledge about Predictive Analysis using ML and CV.
- Understood core machine learning concepts, including supervised and unsupervised learning, data preprocessing, model training, and evaluation.
- Understood the concepts of CV like OpenCV etc,...

5. Glimpses of Visit:

The internship provided a comprehensive introduction to Machine Learning and Computer Vision, emphasizing practical application through hands-on learning. A highlight of the program is the hands-on mini project, where we worked on a real-world dataset to implement and worked based on predictive analysis

Feedback about Student's Internship Performance

Industry Mentor

Internship Feedback – Ms. Shanmuga Priya S

Ms. Shanmuga Priya S completed her internship in the field of Robotics at Galwin, Trichy from 30/05/2025 to 13/06/2025. During this period, she demonstrated excellent understanding of robotic systems, quick adaptability, and strong enthusiasm for learning. She worked on tasks involving sensors, microcontrollers, automation logic, and programming, collaborated well in a team environment, and consistently met all deadlines.

Subject: Internship Request – Robotics

Dear Sir,

I am Shanmuga Priya S, a B.Tech (Artificial Intelligence and Data Science) student at Kongunadu College of Engineering and Technology. I wish to express my keen interest in pursuing an internship in Robotics at Galwin Technology for the period 30/05/2025 to 13/06/2025.

With a strong academic background in AI and Data Science, I am eager to gain hands-on experience and practical exposure to robotics applications under your expert guidance. I believe that an internship at Galwin Technology will give me valuable insights into industry practices and advanced technological solutions.

I assure you of my sincerity, dedication, and willingness to contribute to ongoing projects during the internship period. I kindly request you to consider my application and provide me an opportunity to be part of your esteemed organization.

Thank you for your time and consideration.

Regards,
Shanmuga Priya S.
